So which one is right for me as a Queensland Dealer?

1. Do you want the protection from unlisted encumbrances on the vehicles you trade and buy?

Yes: You need an option which provides an REVS encumbrance certificate.

Option One = VCheck Plus

Option Two = Car History Report + REVS Certificate

No: The Car History report will provide you listed encumbrance details, Insurance claims and other information.

2. Would you like maximum protection with additional vehicle information?

Yes: A Car History report and a REVS Certificate gives you the maximum protection and information.

So can I use or reuse a Car History report for my “REVS on sale”?

1. No. You must still issue a Queensland REVS Certificate on all sales.
